Sierra Park Homeowners Association  
C/o Gloria Harvey, President  
P.O. Box 116  
Long Barn, Ca. 95335  
September 2, 2010

To the Board,

Sierra Nevada Communications has enlisted the aid of a local surveying company to establish all of the right-of-ways we cross to enter Sierra Park. Upon completion of their survey we will file appropriate documentation with Tuolumne County. At which time we will contact your board and let you know where we are in this process.

Our company has filed for new permits to encroach Sierra Park. There is no time line given by the permitting organizations for construction permits. We expect a shorter time period for permits to be granted.

We are not certain until the survey is completed who owns and/or controls the twenty-foot distance between our pedestal and the telephone pole on David. This section inside your park boundaries and will need to be dug to install two-inch conduit for installation of new lines. Sense this issue is being addressed by the survey. We will not have an answer for several days. Therefore in order to keep expediting things. We are asking for your permission in advance to dig from the telephone pole to our pedestal. Should we find out this is under a homeowner's control we will secure their permission first before digging. All other permitting issues are being addressed.

Your letter recently received is asking for technical data to be released. We have been addressing all of the concerns raised in the letter. They will be addressed appropriately.

A handwritten signature in black ink, appearing to read "Tim Holden". The signature is fluid and cursive, with a large initial "T" and "H".

Tim Holden
