## View Other Images

The DVR4015N will allow you to record up to 4 cameras in 30 frames per second for each active camera. That's real time! This advanced DVR even allows you to view your home or office from anywhere in the world via the Internet. The innovative user interface makes setup a breeze and will make recording fast and easy. The unique Email alert feature sends you a video file whenever the event alarm is triggered. It is also a full triplex DVR that allows you to view, record and play back at the same time.
