**Re: Overdue Inspection**  
**Permit: 9501837 - Card Control Building & Gate**

It has come to our attention that you have not requested an inspection for 180 days or longer; the building permit can expire if no work is done within any 180 day period, it is necessary that an inspection be requested within 10 days of the date of this letter. If you hired a contractor to do the work under this permit, please contact the contractor and have the contractor request the appropriate inspection. If you are doing the work as an owner-builder, please request an inspection within 10 days of the date of this letter. An inspection can be requested by simply dialing our 24-hour recorder number (209-533-5940) and requesting the inspection. If your records show that you have received an inspection within 180 days of the date of this letter, please make a copy of your records and send it to us. Please be aware that if the permit is allowed to expire, your construction project may be subject to additional fees and code changes.

If you have any questions on this matter, feel free to contact me between 7:30 - 8:30 a.m. at 533-5633.

Your cooperation in this matter will help keep our files current and allow us to provide better service to you.

Sincerely,

DEPARTMENT OF BUILDING AND SAFETY

BY:

Dennis R. Spisak,  
Building Inspector II
