

Fellow Members:

As Director of Recreational Planning, it is necessary for me to be aware of your desires in the area of recreation.

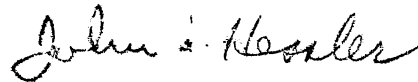

In the past month, I have been able to, with the assistance of other members, have a new raft constructed for our lake, complete the pier on the east side of the lake and see to the installation of the sewage disposal system in the camp grounds. Much has been accomplished in this short time.

At this point I would call on you to determine future priorities for your recreational needs. There have been many plans brought forth for various items, for example; swimming pool, tennis court, golf course, enlargement of present lake, nature trails and toboggan runs. I am sure that with little effort our members could come up with additional items.

I am asking you to compose a list of 5 items with the item most important to you in the number one position; the items second most important to you in the number two position, and so forth, thus establishing your priority.

The results of this poll will be compiled at the Board of Director Meeting on August 4th. The project with the most votes will be the first undertaken by the Board of Directors. The other 4 projects will be undertaken in the order of the voting. Therefore, it is imperative that if you have any strong desires as to recreational projects, respond to this request. If you do not, you may assume that those who do respond will have their wishes met.

Thank you for your time and consideration.

John H. Hessler
Recording Secretary
Recreational Planning Director
