ODD FELLOWS SIERRA RECREATION ASSOCIATION
BOARD OF DIRECTORS MEETING - AUGUST 12, 1990

The Board of Directors meeting was called to order at 9:00 AM by President Ed Smith. Members present were: Smith, Harvey, Adams, Zobel.

MINUTES - Minutes of July 8, 1990 B.O.D. meeting were read and approved.

CARETAKERS REPORT Road repair, water break repair, equipment repair, normal patrol.

Since a quorum did not exist, no reports were presented and no business was conducted except to pay necessary bills.

FINANCE - Zobel - Bills for Homeowners Association: \$28,665.15. Bills for Recreation Association: \$13,058.26. Timber bills \$15,621.00. MSC to pay the bills.

There being no further business, the meeting was adjourned at 10:30 AM. The next regular meeting will be held September 9, 1990 at 9:00 AM.

Respectfully submitted.

SIERRA PARK NEWS FOR AUGUST 1990

SIERRA PARK LODGE #376 Odd Fellows meetings are held the 2nd & 4th Sat. of each month at 7 PM in the Rec. Hall. On our regular meeting of August 25 there will be a short meeting at 6 PM before the pot-luck.

WEATHER The weather is hot and dry. Our forestry restriction now is on Stage 2, which means no camp fires unless in designated areas. Be careful of coals from BBQ's. No vehicles off established roadways.

PINE NEEDLE CLEAN UP - All lots should be cleared of pine needles by now as they are a big fire hazard to your property. Do not put needles in our garbage bin. See Caretaker if you are not sure what to do with them. Lots are required to be cleared by the Forestry Dept.

POT-LUCK - There will be a pot luck in the Rec. Hall on August 25 at 6:30 PM. Bring salad, hot dish, or dessert. Also bring table service for each member of the family. Let's all join in and enjoy the fellowship.

ANNUAL STEAK BARBECUE - Remember the Barbecue steak Dinner on Sept. 2, 1990 in the picnic grounds. Menu will be the same as last year and the price will be \$5 for adults and \$2 for children. Serving will begin at 4 PM and last until all have been served - or until the food runs out. All members and friends are invited. Bring games of your choice to play.

LAKE - The lake is ready for your enjoyment so please NO DOGS or the Health Department can close it.

USE OF ROADS - Roads are mainly for cars. Many children have been using them as play yards, particularly riding various bicycles, atv's etc. and there have been several close calls. Fortunately, no one has been hurt - at least not seriously. Please inform whoever is occupying your cabin that park rules forbid such activities for safety reasons.

DEAD TREES ON PRIVATE PROPERTY - We recently had a dead tree fall across the road from a private lot. Fortunately, there was no damage. There are other dead trees on private lots that could become a danger to property or persons. It would be much cheaper to have them removed than to have to pay for damages that they cause if they fall. The property owner is liable for any damage that trees on his property cause if they fall.

See you next month.....Sierra Sue

ODD FELLOWS PARK WATER REPORT 1989/90

ODD FELLOWS PARK as required by the California domestic water quality and monitoring regulations adopted on January 1, 1989 by the state of California, must report to you, our customers, each year by April 1st, the quality of water served during the previous year. Odd Fellows water users are receiving water that is a blend of sources, all of which are in compliance with the most recent regulations. The testing in 1989 and 1990 on 5 separate sources is herein averaged and compiled into one report.

ODD FELLOWS PARK also wishes to include frequently asked questions and the answers to those questions for you, our customers.

1. Who tests our water?

ODD FELLOWS PARK collects its required samples, and AquaLab Laboratory in Twain Harte does all required testing.

2. What is the Fluoride concentration in ODD FELLOWS PARK water?

No fluoride is added to our water. However, it does occur naturally and is present at less than .1 mg/L. [Fluoride is only added to our water on the rare occasions when we use water from the spring.]

3. What amount of lead is present in ODD FELLOWS PARK water?

Lead is present at a low level of less than 10 ppb in our water, and consistently has tested at household taps at a level of 6 ppb or less.

4. Why are fire hydrants turned on and left running periodically?

A relatively small amount of water must be periodically wasted, as a result of ODD FELLOWS PARK's flushing program, to eliminate the build-up over a period of time of various particles in the mains. This flushing helps to eliminate the dirty water that results from build-up in the water mains of sand and corrosion by-products.

5. What is meant by PH?

The PH of a water sample is an indicator of acidity or alkalinity, and is also an indication of the potential corrosiveness of water. PH scale values range from 0 to 14 with a PH of 7 being neutral [neither acidic or alkaline]. Water samples having PH values below 7.0 tend to be corrosive [acidic], while PH values above 7.0 PH tend to be less corrosive and increase in alkalinity. ODD FELLOWS PARK maintains its water PH around a PH of 8.0.

WATER QUALITY ANALYSIS 1989-90

Primary Standards	Drinking Water Standards ug/L	Levels ug/L	Secondary Standards	Drinking Water Standards	
Inorganic Chemicals			Color	15 units	4.0
			Odor	3 units	<1.0
Arsenic	50	<10.0	MBAS (foaming agent)	.5 mg/L	<0.05
Barium	1000	<100.0	Total dissolved solids	500-1500	116.0
Cadmium	10	<1.0	Specific conductance	900-2200	178.0
Chromium	50	<10.0	Sulfate	250-600 mg/L	2.3
Lead	50	<10.0	Chloride	250-600 mg/L	<1.0
Mercury	2	<1.0	Manganese	50 ug/L	63.5
Selenium	10	<5.0	Copper	1000 ug/L	<50.0
Silver	50	<10.0	Iron	300 ug/L	107.0
Nitrite	45 mg/L	<1.0	Zinc	5000 ug/L	<50.0
Volatile Organic Chemicals	-	ND	Additional Tests		
Endrin	.2	-	Total Hardness	-	64.1
Lindane	4	-	Calcium	-	16.8
