

**TO SIERRA PARK PROPERTY OWNERS ON: *SOLOMON, JONATHAN, JESSE, JOSEPH, RUTH AND OLD JORDAN WAY*** (See map on back)

**YOUR ROAD IS BEING COATED/SEALED** as part of our annual road maintenance. **The projected date is Tuesday, September 27**, unless the weather does not permit or the contractor has a material problem. If the date changes we will let you know.

**Your street will receive coating/sealing and you will not be able to drive on the road for 12-24 hours.** The rest of the Park will receive crack sealing. While your street is being coated/sealed, the following information and advisements should be followed:

- Plan on where to park if you need your vehicle during the 24 hours that your street can not be driven on
- When roads are scheduled to be sealed - arrange to park off area; do not cross, go around barriers or remove barriers.
- Damage to roadway, if driven on prior to barriers being removed, will be charged to property owner if damage is done that needs repair.
- Damage to vehicles or persons driving or walking on road seal prior to barriers being removed is their responsibility. Our company insurance will not cover willful damages.

Besides streets, **the parking areas at the Lodge, Lake and Playground/Garbage Dump area are also to be sealed so they will not be available for parking.** If sealing is to be done during a school day, the bus driver will be notified in advance so that she may change her route and still drop off the children close to the school bus stop.
