Subject: 3-16-18 Road Condition Update
Date: Friday, March 16, 2018 4:27:03 PM

Hello,

I just spoke with Heidi Ordwein and wanted to give everyone an update.

It has been snowing since yesterday and the snow plow has been running since yesterday afternoon at 4. We have had another driver in to assist and the plow has basically been running, nonstop, since yesterday. The predictions are for another foot of snow to fall between now and the end of the day tomorrow so there is no relief in sight.

There has been snow, sleet, and freezing conditions. The roads are slick and will have varying amount of snow on them depending on where the plow is in its cycle. The roads are icy. Do not attempt to come in without a 4 wheel drive with appropriate tires, or chains.

DO NOT PARK YOUR VEHICLE ON THE ROAD. The plow must get through. Park on your driveway or by the garbage dumpster.

Enjoy your weekend.

Wanda
