Mr. Carlo M. De Ferrari  
County Clerk  
County of Tuolumne  
41 W. Yaney Avenue  
Sonora, California 95370

Dear Mr. De Ferrari:

This is in reply to your letter of November 22, 1968, asking about the status of the proposed future frontage road adjacent to the Odd Fellows subdivision on State Highway Route 108 near Long Barn.

The benefits from construction of this frontage road would only be realized by making it a part of the freeway development, which would eliminate this grade connection as well as others in the area. We are uncertain when money will be available for the freeway construction, but it appears to be several years in the future.

We can understand the concern of the people who must use this existing connection, but situations like this exist in many locations, and can only be improved in the order of their relative urgency, as money becomes available. It is unlikely that we will be making any substantial change at this location for the present, unless a critical operational problem develops.

Very truly yours,

*J. R. Cropper*

J. R. CROPPER
