I.	ANNUAL NITRATE SAMPLING	
	Regulations require a minimum of annual sampling for nitrate. If any nitrate result is greatent and 1/2 the 45 mg/l (as NO ₃) MCL (i.e., greater than 23 mg/l as NO ₃) then quarterly	ater
	monitoring must be initiated.	,

Has your system conducted monitoring for nitrate during 1999 from each source? Yes V No_Provide copies of the latest nitrate monitoring results for all sources... ii-99

J. BACTERIOLOGICAL SAMPLE SITING PLAN

The coliform monitoring regulations require that each system submit a sample siting plan for routine and repeat monitoring. Date of current Bacteriological Sample Siting Plan: Please submit a copy of this siting plan if it has been changed in 1999.

K. LEAD AND COPPER

Please complete the following table. Indicate Not Completed (NC) if applicable. Transient non-community systems are not required to conduct distribution system lead and copper monitoring.

Category	Date	Number of	90th Percentile Results (ug/L)		
	Completed	Samples	Lead	Copper	
1 st Round Initial Tap Monitoring	7-1-93	10	NID	358	
2nd Round Initial Tap Monitoring	8-20-93	ÎO	dju	116	
1st Annual Tap Monitoring				·	
2nd Annual Tap Monitoring					
1st Triennial Tap Monitoring	7-97	10	02	200	
2nd Triennial Tap Monitoring	CA-2000	10	5.70	58.40	

L. BACKFLOW PREVENTION ASSEMBLIES ON SERVICE CONNECTIONS

	Total Number in	Number Installed	Number Tested	Number Failed
	System	in 1999	in 1999*	in 1999
Backflow Prevention Assemblies	0	-0	LI/A	NIA

^{*} Section 7605, Title 17, California Code of Regulations requires devices to be tested by a certified tester annually and immediately after they are installed, relocated or repaired.

Specify	the	designated	Cross	Connect	tion Con	trol Prog	gram Coor	dinator	and	the	certified

Specialist	Certification No.

M. RECYCLED WATER PROJECTS IN SERVICE AREA (As of December 31, 1999).

Recycled Water Use Sites	Number Approved	Number Proposed for 2000
Irrigation	RIN	
Industrial	NIA	
Dual-Plumbed (in-building)	AIN	
Total	ALA	

Please attach a list of the specific recycled water use site(s).

N. EMERGENCY NOTIFICATION PLANS

An updated Emergency Notification Plan is required to be submitted this year due to the recent address and phone number changes for the DWFOB Merced District Office. This updated information is provided on the blank form attached. Please complete the form, including the means of notification to be provided in the event of an emergency, and submit a copy with this Annual Report. Remember to keep a copy of the updated Emergency Notification Plan at your office and make it available to all operations personnel.

).	OPERATIONS PLANS (Applicable to systems providing any treatment)				
	Submit a copy of your current treatment plant operations plan if it was modified in 1999.				
	Date of current Operations Plan:				
	Purpose of plan (type of treatment): With				
.	DISASTER PREPAREDNESS/EMERGENCY RESPONSE PLANS				
	Do you have a Disaster Response Plan that addresses the procedures for the restoration of water services for your water system? Yes No If Yes, date of plan:				
	Public water systems with 10,000 or more service connections are required to review and revise their disaster preparedness plans to ensure that the plans are sufficient to address possible disaster scenarios (Government Code, Section 8607.2). Date of last review revision:				
	Please submit a copy of your current plan with this report if it was updated in the past year.				

Q. OPERATOR CERTIFICATION

Please list the State certified water treatment plant operators employed by your water system.

Operator Name RANDY TOLBERT	Operator Number	Grade of Operator	Renewal/ Expiration Date NOV-2001

R. WATER SYSTEM IMPROVEMENTS

Identify any major changes, additions, or improvements in the water system facilities and/or operation that were completed during 1999 or that are planned for 2000. (Water systems are required to submit an amended permit application for any addition or modification to water sources or treatment facilities pursuant to Section 116550 of the Health and Safety Code).

A) JOB OUT TO POSTER (AL WESTERN): 1) SAND BLAST (4) 12,500 GAL TANKS INSIDE. 2) PRESSURE WASH 43,000 GAL TANK INSIDE. 3) RE COAT (4) 12,500 TANKS INSIDE. 4) AIR VENTS INSTALLED ON ALL (5) TANKS
