

Effective Date: May 7th 2015

BOIL WATER NOTICE

Este informe contiene información muy importante sobre su agua potable.
Tradúzcalo o hable con alguien que lo entienda bien.

BOIL YOUR WATER BEFORE USING

Failure to follow this advisory could result in stomach or intestinal illness.

Due to the work being completed on the Sierra Park Water Company's water distribution system, the State Water Resources Control Board, Division of Drinking Water in conjunction with the Tuolumne County Environmental Health Department, and Sierra Park Water Company are advising affected residents on the West side of the Sierra Park Water Company's water system to use boiled tap water or bottled water for drinking and cooking purposes as a safety precaution. If you are receiving this notice on your residence, you are in the project area.

The water distribution system project is scheduled for May 7, 2015, between the hours of 8 a.m. and 4 p.m. During this time, there will be periods of time when you will not have any water. It is important that once water service is restored, you boil the water first before drinking it or use bottled water as noted below.

DO NOT DRINK THE WATER WITHOUT BOILING IT FIRST. Bring all water to a boil, **let it boil for one (1) minute**, and let it cool before using, or use bottled water. Boiled or bottled water should be used for drinking and food preparation **until further notice**. This is the preferred method to assure that the water is safe to drink.

We will inform you when tests show that water is safe to drink and you no longer need to boil your water. We anticipate resolving the problem within 24 hours.
