 Repeat Samples Following Roo Total Coliform Positive and Fed (see notes 5 and 6) 	-		Service de la consecución del consecución de la consecución de l							
. MCL Computation For Total Co	oliform Positive Samples									
a. Totals (sum of columns)		3	3	•						
b. If 40 or more samples collect percent of samples that are [(total number positive/total	total coliform positive.			•						
c. Is system in compliance	with fecal/E. coli MCL? (see notes 2 and 3)	C Yes	□ No							
	with monthly MCL? . (see note 4)	Yes	☐ No							
. Invalidated Samples (Note what samples, if any, we were collected. Attach addition	ere invalidated; why they were inal sheets, if necessary.)	invalidated; who	authorized th	e invalidation; and v	when replacement sam					
S. Summary Completed By:										
Signature Robert Close		Te		ENATOR 2	8978 -6-09					

- b. Extra samples required for systems collecting less than five routine samples per month that had one or more total coliform positives in previous month;
- c. Extra samples for systems with high source water turbidities that are using surface water or groundwater under the direct influence of surface water and do not practice filtration in compliance with regulations.
- 2. Note: For a repeat sample following a total coliform positive sample, any fecal/E. coli positive repeat (boxed entry) constitutes an MCL violation and
- requires immediate notification to the Department (22, CCR, Section 64426.1).

 3. Note: For a repeat sample following a fecal/E. coli positive sample, any total coliform positive repeat (boxed entry) constitutes an MCL violation and requires immediate notification to the Department (22, CCR, Section 64426.1).
- 4. Total coliform MCL (Notify Department within 24 hours of MCL violation):
 - a. For systems collecting less than 40 samples, if two or more samples are total coliform positive, then the MCL is violated.
 - b. For systems collecting 40 or more samples, if more than 5.0 percent of samples collected are total coliform positive, then the MCL is violated.
- 5. Positive results and their associated repeat samples must be tracked on the worksheet on the other side.
- 6. For systems collecting more than one routine sample per month, three repeat samples must be collected for each total coliform positive sample. Repeat samples must be collected within 24 hours of being notified of the positive result.
